### 603-EH

Additional handsets (up to total of 4 max per intercom, can be a mix and match of both styles.)

### 603-HF

Desktop Bracket

Wall mount Bracket

Additional handsets (up to total of 4 max per intercom, can be a mix and match of both styles.)

### 603-WIFIA

Range boosting antenna which can be added to transmitter at gate, and also optionally to the handsfree monitor type. One antenna can boost range by 30%. Comes with 2 metre antenna cable (RG174 with SMA male connector).

## Multi-call station System

### Call Panel Options

# D.E.C.T 703

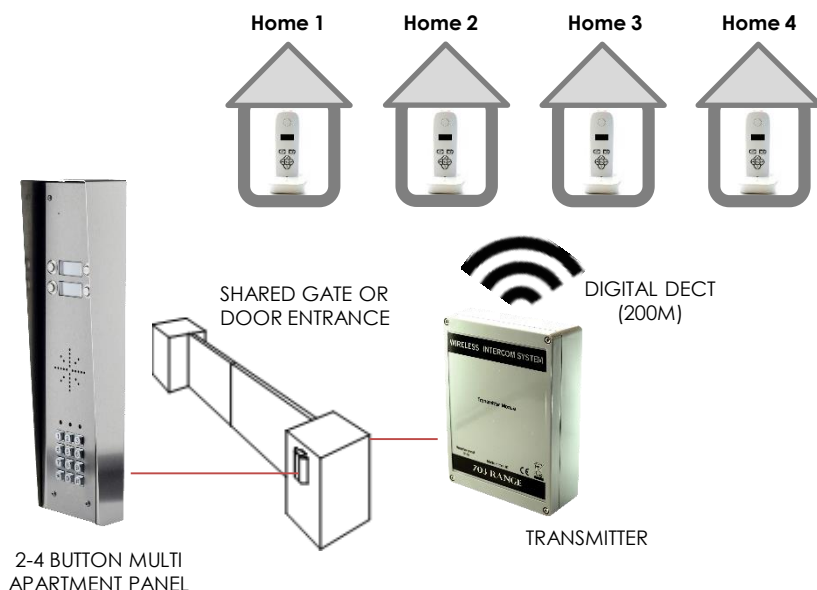

## MULTI BUTTON

- Digital D.E.C.T wireless intercom system for flats, apartments or shared gate entrances.
- Up to 4 call buttons, each button calling a different handset.
- Working range of 100 metres through concrete (up to 500 metres open field).
- 1 handset per property or apartment.
- Simple setup and install.
- Keypad option for coded access.
- Built in voicemail feature for missed callers, user can listen to messages on handset.
- 2 year manufacturers warranty.

# D.E.C.T 703

## MULTI BUTTON

<b>Power supply</b>	12-24v ac/dc (24v dc adaptor included).	<b>Cable between speech unit &amp; transmitter</b>	4 metre screened CAT5 included.
<b>Current draw</b>	50mA standby, 1 amp peak.	<b>Max cable length</b>	8 metres max.
<b>Relay outputs</b>	2	<b>Cable cores</b>	2 x SPK, 2 x MIC, 2 x button, 2 x relay, 2 x power.
<b>Relay time</b>	Adjustable, 1,3,5,9 secs.	<b>Speech unit IP rating</b>	IP55.
<b>Relay load</b>	Max 2 amps, 24v ac.	<b>Transmitter IP rating</b>	IP65.
<b>Technology type</b>	Digital DECT.	<b>Manufacturer warranty</b>	2 years* (RTB).
<b>Handsets per system</b>	4	<b>Keypad programming</b>	On the keypad.
<b>Range</b>	Practical working range of 100 metres. 500 metres open field conditions.	<b>Keypad codes</b>	1200 codes total.

# Cellcom*Prime*

Advanced GSM Intercom

**Powered  
by Vodafone**

- Calls your home phone and mobiles on roll-over when visitor presses call button.
- Never miss a visitor with mobile calling.
- Works with any standard contract or Pre-Pay GSM Micro SIM card.
- Comes with optional Vodafone™ 12 month contract SIM, unlimited calls and texts for £7.50/month + VAT\* (terms and conditions apply, zone 1 Europe only).
- Free home owner App to trigger gates, set up auto opening and closing times, create new access codes, receive notifications on entry etc.
- Free installer app for remote programming and diagnostics.

# Cellcomprime

A d v a n c e d G S M I n t e r c o m

Hello to all our customers and readers, and welcome to 2018. This year we have brought a few enhancements to the award winning Cellcom Prime.

In 2017 you told us you loved the apps, the new time clock features and keypad integration to the main GSM board. This year we have added a few more tricks to keep you excited.

First off, we designed a card reader PCB which would slave off the keypad module. This means our panel can now have a keypad AND a card reader. Not just any old reader though. In classic AES style, our reader can also be programmed by App and users will see this App update come out Q1 2018.

This required an update to the main board software, and both the keypad hardware and software.

Adding a slave card or tag reader got us thinking about adding slave devices. We then thought, well, why add one slave, when we could add more. How about up to 10? Yes, you guessed it. The latest range of AES Prime GSM intercoms hitting the streets in 2018 will have the ability to add up to a total of 10 keypads or card readers or a mix of both, all connected to the one modem. This move brings AES firmly into small building access control and was a move designed to save customers money on multiple SIM card connections when one will do.

Customers will see the established "GSM-5XX" part numbers change to the next release "PRIME-6XX".

The second huge innovation being released in 2018 is 4G connectivity. We have seen some networks switch off 2G (At&T USA, Vodafone, Telstra and Optus Australia). We have also received more and more press releases from networks in Europe announcing a near future switch off of 2G networks, and in other cases, slightly covert re-farming of 2G spectrum to 4G service, meaning that it has been getting harder and harder to achieve good 2G connections in certain areas.

We hope you enjoy our imminent new releases and we thank you once again for your support in 2018. Thank you for reading.

**Managing Director, Advanced  
Electronic Solutions Global Ltd**

# MultiCOM

## Multi Family Intercom

- Multi apartment / multi resident wireless GSM intercom.
- Calls up to 3 numbers per apartment.
- Up to 500 apartments can be stored in the unit.
- 2 relay outputs.
- Programmable by SMS text, PC USB link or on-screen with keypad.
- All stainless steel construction.
- Toughened acrylic LCD protector screen.
- Portrait wall mount style and pedestal mount styles available.
- Both models with high security key access front door.
- Built in “puck” style antenna on pedestal version.

# MultiCOM

## Multi Apartment Intercom

- Digital directory and display, users can scroll names or dial by apartment number.
- Customisable welcome screen message and instructions.
- Users answer call from their telephone, press \* to open gates!
- Keypad can also be used as 4-6 digit access control keypad.
- 2 year manufacturers warranty.

## GSM Apartment Intercom

Technical Details			
Power supply	12-24v dc (24dc adaptor included)	GSM modem	Quad band 850/900/1800/1900
Current consumption	100mA standby, 1 amp dialling	Modem approvals	CE & FCC
Relay outputs	2	Programming method	SMS & with keypad on screen
Relay type	N/O & N/C contacts	Caller ID	Yes
Relay time	Adjustable 1-9999 seconds	Relay control	By phone
Relay load	2A 24v AC max	Keypad codes	1
IP rating	IP55		

— **Multicom-500is/3GA (US/Canada)**  
**Multicom-500is/3GE (EU)**

Pedestal mountable version with industry standard 3" x 3" mounting hole arrangement.

Super high volume model with 4 watt speaker, perfect for car park barriers and industrial entrances.

— **Multicom-500HS/3GA (US/Canada)**  
**Multicom-500HS/3GE (EU)**

Wall mounted version for regular building door access or shared gate entrances.

BS316 Marine grade stainless steel rain and sun hood.

— **Multicom-500FS/3GA (US/Canada)**  
**Multicom-500FS/3GE (EU)**

Wall mounted flush version for regular building door access or shared gate entrances.

BS316 Marine grade stainless steel.

- Simple setup by mobile phone.
- Connect to the intercom directly through your phone's Wi-Fi, enter the pass code for the home hub Wi-Fi and the device is connected.
- View the gate/door and open any time with monitoring mode.
- Full duplex speech.
- 2 Relay output.
- Latching outputs for hold open.
- CAT5 terminal port for easy hard wire option.
- Upgraded camera, with IR cut filter for better colour by day and IR night vision by night.
- Stores images of the last 32 missed callers on your phone.
- Still works locally on Wi-Fi network even if broadband goes down.
- Can work with most market standard outdoor Wi-Fi repeaters for extended range.

# WiFi Range Extending Tips

## Up to 60 metres

(Depending on home router type, router location and building materials)

## Up to 100 metres

## Up to 200 metres

With Homeplugs (depending on electrical circuits)

## Up to 500 metres

With Point to Point WiFi Link

- Range can be extended up to 500 metres by using various open market devices, such as Homeplug Technology, WiFi repeaters and point to point links. Always conduct a site survey before quoting this system.

# 4G Predator 2

4G Video Intercom

- 4G version of the fastest growing AES product, the Predator Video Intercom.
- Connects to 4G network with 4G compatible SIM (not included).
- No need for Wi-Fi connectivity. Totally independent from home network.
- Easy plug and play setup with same App as Wi-Fi version.
- Simply connect both devices together via Ethernet cable (supplied), connect power, and log on with provided credentials.
- Complete with 24v dc PSU (for intercom), and POE adaptor (for modem).
- 100 calls per ½ Gb of data (based on 30 second calls).

### — Stylus-4

- Additional monitor for larger homes.
- Sleek design, featuring a brushed metal effect finish with a gloss black screen trim.
- Wall mountable hands free design.
- Touch sensitive buttons.
- Volume control.
- 4 inch screen.
- Power supply included.

### — Stylus-dome

- Black Dome camera.
- Day/Night Vision with a 10 metre night range.
- 700 TVL.
- 4mm fixed lens.
- Power supply not included.

### — Stylus-bullet

- Black Bullet camera.
- Day/Night Vision with a 10 metre night range.
- 700 TVL.
- 4mm fixed lens.
- Power supply not included.

## **Terms and conditions**

### Marketing Support

We have a range of marketing items including demonstration cases with working product, wall displays, catalogues and other items. These can be purchased at a reduced and subsidised rate, but can also be given to distributors for free in the event of placement of a large stock order. We have a range of programmes, including credit for display equipment after set quantities of sales are achieved. Contact your area sales representative for more information on the support we can offer.

### Pricing Policies

Advanced Electronic Solutions Global Ltd reserve the right to suggest sell pricing policies for customers. Any customer pricing our products in such a way that we feel does harm to our brand or our market, may be given written notice of removal of supply. Price fixing is illegal in some counties, and the company does not have a policy of enforcing particular selling prices or price fixing. We merely advise a sensible policy which ensures the distributor has sufficient margins to properly and professionally support our products and promote our brand in a positive way. We take many factors into consideration when choosing market partners, and we reserve the right to choose who we distribute through.

### Credit terms

We only offer credit to UK and Republic of Ireland companies. We do not offer credit to other territories. We reserve the right to remove credit from customers without notice, should payment terms be broken by the customer. Overseas customers pay at time of order placement. An order will not be scheduled for production until payment is received. Lead times will be given on receipt of payment.

### Lead times

Generally we have most items available for dispatch within 1-2 working days. Medium orders of up to 10 items may attract a lead time of up to 5 working days. Larger orders can attract a lead time of up to 4 weeks. It is the responsibility of the distributor to hold adequate stock to support the market. However we will endeavour to support customers where possible should they run out of stock unexpectedly or have an order for an item which they do not normally stock.

### Currencies

We reserve the right to adjust our overseas pricing due to currency fluctuations. We will give customers 60 days' notice of any price changes.

### Warranty

Our company policy is a 2 year return to base warranty. Customers return suspect parts for either repair or replacement, depending on which is most efficient.

### Returns

No item may be returned without a returns authorisation number.

## **Terms and conditions Continued**

### Complete system returns

We manufacture products which are modular. Therefore any suspect defective product can have parts swapped rather than replacing entire systems. Complete installed products which are returned cannot be credited as they cannot be sold again as new. Only un-installed and as new products can be credited. Complete returned items will normally be repaired and returned to the distributor, for return to the installer again, or, the distributor can be quoted costs for re-working the system to make it "as new".

### Re-stocking fees

Items can be returned if ordered in error, or are not suitable for the application. These will attract a 10% administrative re-stocking fee. It is not the responsibility of Advanced Electronic Solutions Global Ltd to ensure that the product selected is completely suitable for the application. We are happy to advise customers to the best of our ability, however ultimate responsibility for security or access system design lies with the installer or dealer. Items which have been installed and not in brand new condition with all accessories, manuals and packaging, can in cases be credited, but will attract a re-stocking fee of 30%.

### Field faults

We encourage all distributors to have the installer contact us in the event of a problem on site. No items will be accepted for return unless we have spoken to the installer and are confident that returning the item is the best course of action.

### No Fault Found

We issue a standard £25 re-test fee for any items returned which are no fault found status, except where we have expressly agreed to have the item back for analysis.

### Technical Support

We offer technical support on all our products as a free service.

### Call Logs

We log all technical calls on a database for future reference and training purposes. We also record calls from time to time for training and quality purposes.

### Diagnostics

Should we feel a unit in the field needs a replacement part, we will contact the distributor, advise them of the situation, and make arrangements for a part to be sent to the installer from the distributor or from us on behalf of the distributor. Order numbers are required for all parts, and all parts will be invoiced for, and credited on return of the original item. We do not accept holding of payment on account for items not yet returned to us.

### General

Advanced Electronic Solutions Global Ltd reserve the right to change prices, specifications and terms without notice.

Full Terms and Conditions can be requested upon.
